EDUCATION

University of Georgia

Athens, GA

Bachelor of Arts in College of Arts and Sciences

Exp. May 2025

Major: *Cognitive Science*

Academic Awards: Dean's List(2 semesters), CURO Research Grant

RELEVANT COURSEWORK

User Experience, Multicultural Perspectives on Women in the US, Cognitive Psychology, Introduction to Computing and Programming

PROJECT EXPERIENCE

User Experience Research and Design

Current

Pacific Northwest National Laboratory

- Led a project creating and evaluating design solutions for a Building Performance Standards website
- Managed a heuristic evaluation for a well performance tool with 2 UX Designers, finding over 35 errors and provided solutions and prioritization suggestions
- Designed usable and pleasing page elements spanning across multiple fields: energy storage, carbon storage, training modules, and risk management

Research Experience

April 2024

- Performed a literature review on decision-making among undergraduate researchers
- Composed interview questions to gather information about the impact of decision-making on undergraduate experiences
- Presented research to peers and professors at CURO Symposium

User Experience Design Project

July 2023

NMIX 4012E - User Experience

- Worked alongside 2 classmates to design a user-friendly app to find restaurants with live music
- Achieved a System Usability Scale Score of 95.6 and our testers heavily described it as accessible
- Presented our reasoning behind design decisions and our user research findings in a case study

Nature Teaching Experience

December 2022

FANR 1101- Natural History Of Georgia

- Collaborated with a team of 3 classmates to design and present a nature exhibit to a group of 60-80 high school students
- Developed a lesson plan to meet the needs of the high school teachers and engage students in the learning experience

ADDITIONAL EXPERIENCE

UGA Event Services

Athens, GA

Student Worker

July 2021-Current

- Provide customer service for conference guests by giving tech assistance for Macs, PCs, projectors, microphones, lighting
- Worked with 4 team members to find efficient means of completing tasks such as room setups, meeting with guests, fixing tech issues
